## **SWIM LESSON REGISTRATION INFORMATION**

**Step #2**            **Based on the flow chart; refer to the detailed information in the brochure to verify/confirm the level for the student.**

**Step #3**            **Use the grid to find the course code for the level based on dates, time, session. The course number found on the grid is used to search and register for the class.**

Parents have the ultimate responsibility to correctly place their child into the correct class. Children registered for a class which they are not qualified for will be placed in the correct class only if there is a vacancy. If there is no vacancy your money will be refunded.

Please read the class descriptions carefully to insure your child is enrolled in the correct class. If your child graduates to a higher level than you have them registered for, we will make every effort to accommodate a transfer, subject to availability. However, there may be instances where a refund is necessary.

Students will progress through levels at different speeds depending on several factors such as their age, physical coordination and the number of lessons in each session. When registering for multiple sessions at the start of the summer season we strongly recommend that you not register for higher levels sessions to session. It is best to register your child into the same level for two or more sessions then the next level for two or more sessions.

Please consider our FREE drop-in skill assessment opportunity offered during all public scheduled hours of operation.
